Contributions to New LGSOC Research

STAAR Ovarian Cancer Foundation is the first U.S.-based nonprofit dedicated to low-grade serous ovarian cancer (LGSOC). It has contributed more than \$600,000 to research LGSOC since its founding in 2020. The following are research studies we have funded:

Project Title	Year Funded	Amount Donated	Research Institute
Targeting Trametinib-Resistant LGSOC by Drug Repurposing	2024 & 2023	\$53,000/\$76,000	University of Texas MD Anderson Cancer Center
Endocrine and mTOR Therapy in Recurrent LGSOC	2024	\$100,000	Stephenson Cancer Center at the University of Oklahoma Health Sciences
Identifying Predictors for Chemosensitivity in Patients with Advanced and Recurrent LGSOC	2023	\$250,000	Memorial Sloan Kettering Cancer Center
Biomarkers of Sensitivity to Aromatase Inhibitors in Women with Recurrent LGSOC/Peritoneal Cancer	2022	\$100,000	University of Texas MD Anderson Cancer Center
Estrogen Signaling in LGSOC	2021	\$70,000*	University of Texas MD Anderson Cancer Center

*donated jointly with Cure Our Ovarian Cancer
